Nurturing Young Minds Through Play: Academic Facilities Services

At Academic Facilities Services, we champion the power of play in a child's life. We believe play is not just about fun, but essential for fostering a child's social, emotional, intellectual, and physical development.

Play ignites a spark in children. Through imaginative exploration, they develop critical skills like:

Physical growth: Coordination, balance, and motor skills

Intellectual curiosity: Problem-solving, creativity, and critical thinking

Social interaction: Communication, teamwork, and empathy

Emotional well-being: Confidence, self-esteem, and resilience

When children prioritize play, they prioritize learning. That's why we offer a wealth of innovative play concepts, designed to transform your space into a vibrant hub for young minds.

Let us create a customized solution for your needs. We provide:

Free consultations to discuss your vision and space.

Custom-designed play areas tailored to age groups and learning objectives.

All prices are inclusive of delivery and installation, for a seamless experience. We believe in transparent communication and ensuring your investment aligns with your budget.

Contact Academic Facilities Services today and unlock the power of play!

Adventure play trails

Let your child's inner explorer loose on an adventure play trail! These exciting courses are packed with physical challenges designed to boost their growth and development.

A World of Playful Exploration:

Timber Adventure Trails: these trails offer a fun challenge for all ages. Imagine conquering an obstacle course, scaling a mountain ridge, or braving a rushing river – all in the name of healthy play!

Engaging Activities: From balancing beams and wobbly bridges to climbing ropes and secret passageways, these trails get kids moving and develop important gross motor skills. Social interaction blossoms as they tackle challenges together.

Benefits Beyond the Fun:

Develops Skills: These trails aren't just child's play. They help children build strength, balance, and perseverance.

Encourages Fitness: Disguised as fun, these courses promote healthy exercise and a love for being active.

Endless Entertainment: With a variety of challenges, these trails offer hours of engaging play that keeps kids coming back for more.

Safety and Sustainability:

Made from responsibly sourced timber or eco-friendly recycled plastic, these trails prioritize both child safety and environmental responsibility.

Bring the Adventure to Your Playground!

Fun trail 1

Swinging Log Steps Traverse. Tyre Traverse. 4 x Balance Beams. Net Bridge. Clatterbridge. Burmese Bridge. Chain & Pole Traverse. 20 x Stepping Logs.

Age Range: 3 to 11

Item Size: 11.9 x 8.2m

Fun trail 2

Swinging Log Steps Traverse. Tyre Traverse. 4 x Balance Beams. Tyre Challenge. Log Bridge. Burmese Bridge. Cross-Chains Traverse. Chain & Pole Traverse. 20 x Stepping Logs.

Age Range: 3 to 11

Item Size: 12.4m x 8.3m

Budget trail 1

Clatterbridge. Inclined Log Twister. Stilt Walk (set of 8). Wobbly Balance Beam. Raise & Fall Logs. Balance Beam. Cross-Chains Traverse. Chain & Pole Traverse. 10 x Stepping Logs.

Age Range: 3 to Adult

Item Size: 11.3m x 9.3m;

Critical Fall Height: 600 mm

Budget trail 2

Burma Bridge. Tyre Traverse. 2 x Balance Beams. Cross-Chains Traverse. Net Bridge. Wobbly Balance Beam. 10 x Stepping Logs.

Age Range: 3 to Adult

Item Size: 10.7m x 8.1m;

Critical Fall Height: 600 mm

Budget trail 3

Giant Swinging Log Traverse. 3 x Balance Beams. Spring Platform. Inclined Log Twister. Bumpy Clatterbridge. 10 x Stepping Logs.

Age Range: 3 to Adult

Item Size: 12.2m x 3.4m Smallest;

Overall Area Required: 15m x 6m

Critical Fall Height: 600mm

Eco trial

Mini Wobbly Balance Beam. Parallel Rope & Chain Traverse. Two Balance Beams. Giant Swinging Log Traverse. Burmese Bridge. Inclined Log Twister.

Plastic only

Age Range: 3 to Adult

Item Size: 23 x 1m;

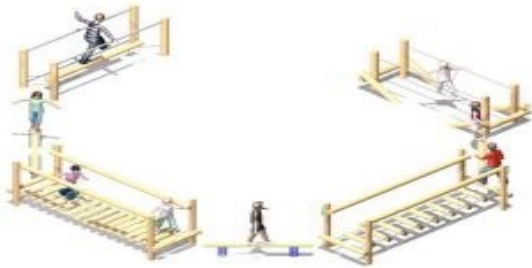

Overall Area Required: 25m x 3m

Critical Fall Height: 600mm

Adventure Trim Trails

Venture trail

Log Bridge. Balance Beam. Burmese Bridge.
Wibbly Wobbly Pole. Wobbly Balance Beam.
Clatterbridge. Spring Wobble Board.

Age Range: 3 to Adult

Overall Area Required: 12m x 12m

Critical Fall Height: 0.6 m

The Rope Rush

1 Vertical Scramble Nets. Horizontal Scramble Net. Approach Scramble Net. 2 Traverse Nets. Hanging Rope Traverse. 3 Parallel Rope Traverses. Angled Rope Traverse. Rope and Pole Traverse. Approach Ramp With Pull Up Ropes. Inclined Log Twister. Swinging Log Steps Traverse. Giant Swinging Log Traverse. Wibbly Wobbly Pole. Rope Ladder Traverse.

Age Range: 5 to Adult

Item Size: 12.5m x 11m;

Overall Area Required: 17m x 11m

Critical Fall Height: 1.2 m

Mini trail 1

Balance Beam. Clatterbridge. Inclined Log Twister. 1 Stepping Log.

Age Range: 3 to Adult

Item Size: 9.5 x 1m;

Overall Area Required: 12m x 3m

Mini trail 2

Mini Wobbly Balance Beam. Burmese Bridge.
Cross-Chains Traverse. Tyre Hopscotch. Rotating Log Walk

Age Range: 3 to Adult

Play Frames

Imagine a playground kingdom where climbing walls meet thrilling slides, and swings become pirate ship sails! That's the magic of multi-use play frames - compact wonderlands bursting with activities for every kind of adventurer.

A World of Play in One Place:

These clever structures combine all the classics: challenging climbing elements, zippy slides, and laughter-filled swings. But they don't stop there! Imagine balancing on beams, scaling rope ladders, or conquering chain walks. Multi-use frames offer endless possibilities to keep young minds and bodies engaged.

Growing with Imagination:

More than just fun, these frames are designed to help children thrive. Climbing challenges build strength and coordination, while balancing acts improve stability. Each twist and turn encourages problem-solving skills, all while imaginations soar. One moment it's a mountain peak, the next a pirate ship ready to set sail!

Built to Last, Built with Care:

We use only the best materials - responsibly sourced timber or eco-friendly recycled plastic - to ensure these frames are safe and long-lasting. That means countless hours of worry-free play for children, and peace of mind for parents.

The Perfect Playground Partner:

Looking to add excitement to your play space? Multi-use frames are the ideal choice for parks and playgrounds. With endless possibilities for active and imaginative play, they'll become a hub for happy memories for children of all ages.

Small play 1

Let's Get Imaginative: Playgrounds with Themes!

Imagine playgrounds that aren't just slides and swings, but entire worlds waiting to be explored! That's the magic of themed play equipment.

Designs to Spark Creativity:

Themed equipment comes in all shapes and sizes, from mighty castles to fire-fighting adventures. Kids can climb aboard pirate ships, soar through space stations, or wander through enchanted forests. The possibilities are endless!

More Than Just Fun:

These play sets aren't just about entertainment. They're designed to help children grow in all sorts of ways:

Strong Bodies, Strong Minds: Climbing, balancing, and jumping keep kids active, while creative challenges and pretend play boost their thinking skills.

Social Butterflies: Themed play sets encourage teamwork and role-playing, helping children develop social skills and problem-solving abilities.

Safe and Sustainable:

Made from eco-friendly materials like recycled plastic or responsibly sourced timber, themed equipment is kind to the planet and safe for kids.

A Playground Adventure Awaits!

Themed play equipment transforms any space into a world of wonder. With challenges to overcome and stories to create, it's the perfect place for kids to explore, imagine, and play together!

Sand Barge and Cabin

Includes Sand

Small Log Boat

Swings

Playground swings are more than just a childhood pastime; they're a launching pad for a world of benefits. Here's why:

Beyond the Physical: Sure, swinging gets your heart rate up and strengthens muscles. But the rhythmic back-and-forth motion is also calming and can improve balance and coordination.

Social Butterfly Booster: Swings are a natural invitation for interaction. Sharing a swing, taking turns pushing each other, or simply chatting next to someone on another swing can spark friendships and build social skills.

Playful Inspiration: The simple act of swinging can ignite a child's imagination. Soaring through the air becomes a flight on a magic carpet or a daring escape on a pirate ship. The possibilities are endless!

Memory Makers: From the first giggle of exhilaration to the shared laughter with friends, playground swings create moments that stay with us long after we leave the park.

So next time you're at the playground, don't just watch the kids have all the fun. Hop on a swing, embrace the feeling of weightlessness, and let the joy of swinging take you back to a simpler time. You might just surprise yourself with how much fun it is!

Double flat swing

Swings have always been a favourite of children and adults alike. The Double Flat Seat Swing consists of 2 heavy-duty rubber flat seats on a timber/recycled plastic 'A' frame.

Double Cradle swing

Swings have always been a favourite of children and adults alike. The Double Cradle Seat Swing consists of 2 heavy-duty rubber cradle seats on a timber/recycled plastic 'A' frame.

3 bay swing

The 3-Bay Swing is ideal for those play areas where there isn't enough room for both a Flat Seat Swing and a Cradle Seat Swing. The 3-Bay Swing consists of 2 heavy-duty rubber flat seats and 1 heavy-duty rubber cradle seat – all connected by chains to the swing top-bar.

Wood only

Basket Swing

The Basket Seat Swing offers the chance for a small group of children to use a swing at the same time, thus encouraging social and interactive play. It is also useful for parents with smaller children, as they can accompany them on the swing. A Basket Seat Swing is also ideal for children with certain disabilities, as the size and shape of the seat provides greater stability & they can be accompanied by others.

Hexagon swing

Hexagon Swing Swings have always been a favourite of children and adults alike. The Hexagon Swing is great for encouraging groups of children to play together, thus promoting social and interactive play. The Hexagon consists of 6 heavy-duty metal reinforced rubber flat seats connected by chains to the swing top-bar.

Wood only

Activity Climbing nets and cones

Activity climbing nets and cones are popular playground equipment that provide a fun and challenging climbing experience for children of various ages.

Climbing Nets:

These are large, three-dimensional structures made of interwoven ropes, creating a web-like climbing surface.

They can be various shapes and sizes, but some common ones resemble cubes, pyramids, or even ships.

Climbing nets allow children to explore different climbing paths, up, down, and sideways, challenging their coordination, strength, and agility.

They often come in different heights, catering to a range of abilities.

Cone Climbers:

These are shaped like cones, with a net climbing structure covering the entire outer surface.

Some cone climbers may have a central pole with a climbing rope leading to the top platform.

Others may be designed like a spinning top, allowing children to climb and spin simultaneously.

Cone climbers offer a fun and enclosed climbing experience, promoting balance and spatial awareness.

Benefits of both:

Develop gross motor skills like climbing, crawling, and manoeuvring.

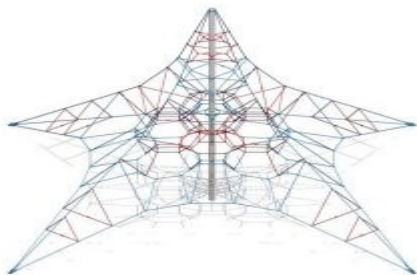

Improve coordination, strength, and balance.

Boost confidence and a sense of achievement when reaching the top.

Encourage imaginative play and exploration.

Provide a social climbing experience for children to play together.

If you're looking for a fun and challenging activity for your child at the playground, both climbing nets and cone climbers are excellent options!

Age Range: 5 to Adult

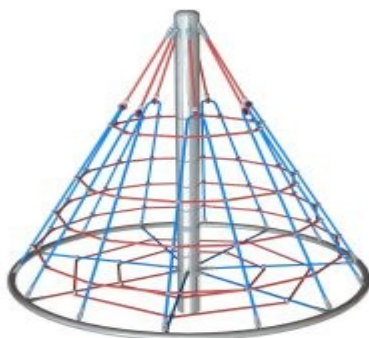

Item Size: 9.35m x 9.35m x 6.0m;

Overall Area Required: 12m x 12m

Critical Fall Height: 0.7 m

Available in 2m, 4m and 6m

Contact us for a quote!

Age Range: 3 to Adult

Item Size: 2.4m high;

Overall Area Required: 6m x 6m

Critical Fall Height: 1.6 m

Available in 1.8m, 2.4m and 3.2m

Sensory items

Sensory playground equipment is designed to engage a child's senses of touch, sight, sound, smell, and taste (though taste is less common for safety reasons). It's great for all children, but especially beneficial for those with sensory processing difficulties. Here are some examples:

Tactile: These elements provide interesting textures for children to touch, like panels with different bumps and grooves, or surfaces made from various materials like rubber, cork, or sandpaper.

Visual: Bright colours, swirling patterns, and mirrors can capture a child's attention and stimulate their vision.

Sound: Musical instruments, chimes, or wind spinners create opportunities for auditory exploration. Some equipment may even have crackling or crinkling sounds built in.

Smell: Scented plants or herbs can be incorporated into the playground for a subtle olfactory experience. Water play areas and sandboxes are also popular choices, as they provide opportunities for messy and creative play that can be very stimulating for the senses.

Sensory playground equipment can be individual pieces or integrated into larger play structures. It's all about creating a fun and engaging environment that allows kids to explore their senses in a safe and stimulating way.

Eco Chimes

100% recycled plastic posts. HDPE post top finishers. HDPE chimes panel. Aluminium chime tubes with heavy-duty anodized finish. Musically tuned chime tubes. Stainless steel fasteners. Age Range: 3 to 11

Item Size: Approx 1.4m high x 1.2m wide;
Overall Area Required: 2m x 1m

Musical Bongo Panel

3 x different size and sound bongos. Attached to the panel at an angle for easy playing. Virtually unbreakable and shatterproof. Standard 800mm x 800mm HDPE panel size. Designed for children playing in controlled environments. Economically priced. Can be installed onto existing walls / fencing, or mounted on timber or recycled plastic posts.

Sand and Water Basin

Standard height of 1m – but can be higher/lower if required.

Age Range: 3 to 5

Item Size: 1.2m x 0.9m;

Overall Area Required: 2m x 2m

Supplied with lid.

River run

Standard height of 1m – but can be higher/lower if required.

Age Range: 3 to 5

Item Size: 2.3m x 0.75m;

Overall Area Required: 3m x 1m

Sand pit with sliding lid

Age Range: 3 to 7

Item Size: 1.5 x 1.5m with lids closed.

Overall Area Required: 2m x 2m

Recycled Plastic Sand Pit

Colours available: Blue, Green and Rainbow

Available game tops are: 2 x Chessboards; Chessboard + Snakes & Ladders; Ludo + Connect 4; 2 x Snakes & Ladders; Tiny town (road map); 2 x Multiplication Grids.

Playground Roundabouts: Fun and Developmental for All Children

Playground roundabouts, not to be confused with traffic circles, are circular spinning structures that provide a fun and engaging play experience for children of all abilities.

Here's what makes them great:

Inclusive Design: Typically flat discs 2-3 meters in diameter, roundabouts often have bars for users to hold onto or lean against while spinning. This makes them accessible to children with all abilities, including those in wheelchairs.

Sensory Play: Roundabouts offer the exhilarating sensation of spinning safely. The rotating mechanism allows children to control their speed and experience the world in a new way, stimulating their vestibular system.

Developmental Benefits: Playing on a roundabout can improve a child's balance and spatial awareness. It can also encourage teamwork as multiple children ride together, taking turns and cooperating. The spinning motion can further enhance sensory development.

Durable Materials: Roundabouts are built to last, crafted from materials that can withstand active play.

Variety of Options: There are different types of roundabouts to suit various needs:

Bowl roundabouts: Compact and ideal for smaller playgrounds.

Hanging roundabouts: Great for group activities and require minimal space.

With their endless fun and developmental benefits, playground roundabouts are a valuable addition to any play area.

Whirl Accessible Roundabout

Age Range: 3 to Adult

Item Size: 2m diameter;

Overall Area Required: 6m x 6m

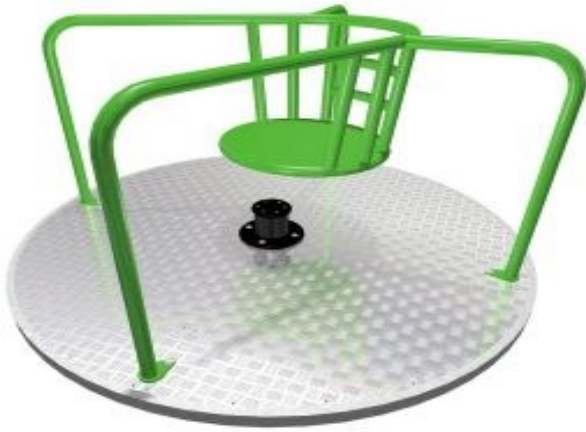

Spinme Inclusive Roundabout

Age Range: 3 to Adult

Item Size: 2m diameter;

Overall Area Required: 6m x 6m

Orbiter Roundabout

Age Range: 5 to Adult
Item Size: 1.5m x 1.5m;
Overall Area Required: 6m x 6m

Merry Roundabout

Age Range: 3 to Adult
Item Size: 1.5m x 1.5m;
Overall Area Required: 5m x 5m

Mini Spinner

Age Range: 5 to 11
Item Size: 0.5m x 0.5m;
Overall Area Required: 4m x 4m

Let's Play and Grow: Fun and Development for Young Learners

Looking for engaging ways to help young children thrive? Look no further than our specially designed playsets for early learners (ages birth to five)!

Designed for Discovery:

Our playsets come in a variety of exciting options, from classic climbing frames and slides to interactive sandboxes and sensory stations. We cater to every child's interests, fostering a love for exploration and play.

Activities that Spark Potential:

These sets are more than just fun – they're developmental powerhouses! Children can climb, balance, jump, and explore textures, all while sparking creativity and encouraging imaginative role-playing.

Building Strong Foundations:

Play isn't just about fun! Our sets promote holistic development in young children. Physical activities improve motor skills and coordination, while imaginative play ignites curiosity, problem-solving abilities, and spatial awareness.

Social Butterflies in the Making:

Through play, children learn valuable social skills too! They'll practice interacting with others, working together, and navigating conflicts in a positive way.

Safe and Sustainable:

We take safety seriously. All our equipment is built with the highest safety standards in mind, using responsibly sourced timber or eco-friendly recycled plastic and metal.

The Perfect Playful Addition:

Our early years playsets are a fantastic choice for any nursery or school, providing countless hours of active, imaginative play that will nurture young minds and bodies.

Early Years Discovery Trail

Hump-Back Bridge. Set of 3 straight Balance Beams (200mm & 400mm heights). Set of 5 Stretch Posts. Set of 5 straight Stepping Stones. Set of 5 Flower Posts. Scramble/Crawl Tunnel. Set of 5 curved Stepping Stones. Set of 2 curved Balance Beams (200mm height).

We Keep Your Playground Safe and Fun!

Here's what we offer to ensure your playground is a haven for happy and safe play:

Expert Inspections:

Qualified Inspectors: Our team is fully accredited by RPII and NEBOSH, trained to meticulously examine, certify, and approve both indoor and outdoor play equipment.

Safety First: Regular inspections are essential for maintaining a safe and compliant play environment.

Seamless Maintenance & Repair:

One-Stop Shop: We handle everything in-house, from inspection to any necessary repairs. This ensures the team familiar with your equipment performs the work, providing a smooth and efficient service.

Safe and Appealing Surfacing:

Certified Options: We offer a variety of BS EN 1177 certified safety surfacing solutions, including wet pour, rubber mulch, grass mats, and bark/woodchip.

Clear Pricing: Transparent pricing for each surfacing option is listed (rubber mats, rubber mulch, wet pour).

Thermoplastic Playground Markings:

Durable & Engaging: Enhance your play area with our popular thermoplastic markings. They're known for their durability, safety, visual appeal, and educational value.

Outdoor Gym Equipment:

Fitness for All: We provide a wide range of outdoor gym equipment packages to suit any need. Let your community enjoy the benefits of exercising in the fresh air!
